

Scenic Flights & Cruise Tours Quick List

Central Great Barrier Reef & Heart Reef

A beauty that cannot be compared to Cairns. The World Heritage Great Barrier Reef is more than 2300 km long. The best of north and south meet in the central part, Hamilton Island. Hamilton Island is the easiest place to access Heart Reef, which is said to 'deepen love' when seen by two people together.

Whi tehaven Beach

Whi tehaven Beach is considered one of the most beautiful beaches in the world. The pure white silica sand makes for pure purity. Hamilton Island is the easiest to reach and optional tours are offered every day. Not available as a day trip option from Cairns or the Gold Coast.
